

LAUNCH OF LA COUPOLE – BISTRO LAURENTIEN!

Welcome to the new La Coupole – Bistro Laurentien!

Our new menus? An innovative cuisine using products from local artisans from all Québec regions between the laurentian mixed forest and the south of the province. Dishes are inspired by the old-fashioned cooking of the families who built today's Québec, the First Nations' traditional dishes and the different waves of newcomers who shaped our culinary heritage. Moreover, a selection of 25 wines from Québec will complement our wine list.

Our new décor? Québec's map will be the star of our blackboard, covering the main walls of the restaurant. Around those maps, we will identify where our produce come from. The bar has also been redesigned and we've expanded it for a whole new experience! The bar section itself can accommodate 12 people on bar stools. We've added the alcove section - a private banquet for a group of 8 people - and also the lounge section, where another 12 people can sit comfortably on lounge chairs. Those new sections are perfect for your happy hours with colleagues or friends, for a little sip and bite! For groups in need of a more private space, whether for meetings or for fun cocktails, we've revamped the Salon VIP, our existing private room, and we've also added a new one, the Salon Cellier! This new private space, alongside our cellar, can welcome 18 seated people or 25 in cocktail style.

Come and experience La Coupole – Bistro Laurentien, we're just waiting for you!
